dismantle

Opening act of generosity

21 March 2012

Dismantle volunteers at work

Volunteers at Dismantle gave freely of their time and expertise to repair over 40 used bikes for donation to B4H last Sunday. The workshop was precursor activity to the (Grand) Opening of the Dismantle bike workshop space in central Fremantle.

Performing the Opening, City of Fremantle Mayor, Brad Pettitt complimented Lachy Ritchie and the Dismantle team on bringing

together the dream of a community project that promotes healthy, non polluting activity and encourages repair and recycling of bicycles.

B4H (WA) Chairman, David Tucker added congratulations and thanked the Dismantle volunteers for the donation of 40 'ready to ship' bikes. In total the newly established partnership between B4H and Dismantle has already delivered over 60 bikes for inclusion in the next B4H (WA) shipment to Africa.

Lachy Ritchie, Mayor Brad Pettitt and David Tucker

The Dismantle contributions have topped off a very successful bike collection, mostly conducted over two weekends in February. Thanks to the kindness of two shopping centre owners at Hamilton Hill Plaza and Lesmurdie Village, and of the Scarborough Church of Christ, the Perth public had a choice of three convenient drop off points. Our wonderful volunteers were overwhelmed by public generosity - 280 bikes were donated!

B4H (WA) now has over 400 mountain bikes at its storage facility – plenty to fill another container, to be shipped soon – **Changing lives in Africa**
