B4H WA – First container ready to ship

Sunday 25 September, 2011

Loaded and locked!

At a working bee yesterday, when most would rather have been watching the Eagles playing the AFL Preliminary Final, a team of a dozen or so dedicated volunteers completed packing a 40ft shipping container with 315 bikes. This container is booked for shipping from Fremantle on October 4, and scheduled to arrive in Walvis Bay, Namibia on 7 November for delivery to the Cycling Empowerment Network. BEN will use the container to establish a Bicycle Empowerment Centre as a community project in a needy village in Namibia – changing lives for Namibians.

At a sausage sizzle after the packing was all done, B4H WA Chairman, David Tucker congratulated the whole team of volunteers, "To reach this milestone in less than 6 months from the decision to establish a new Chapter in Perth is an unbelievable achievement. It is a testimony to all our volunteers who have given their time and worked so hard since bike collections commenced in early July."
