“We r greatfull 4 your support,,,. It helpz us alot”

email from Duweltjie Bicycle Shop in Keetmanshoop, Namibia

Duweltjie Bicycle shop is one of the Bicycle Empowerment Centres in Namibia that shared the 350 bikes in our second container shipped in May this year. This container was used to resupply seven existing and successful BEC's. In another email, Sonet Geno, Project supervisor at the Rainbow Bicycle shop in Rehoboth says:

“This is a short note to thank you very very much for the bicycles received at the Rehoboth Rainbow Bicycle Shop. We are very appreciative of the effort you make to help us continue with the projects through the assistance of the Bicycle empowerment network. This project teaches a lot and empowers us to support ourselves through the funds generated.

May you blessed always as you are a blessing to our activities.”

Sonet's email sums up precisely why B4H does what it does – changing lives and self determination for underprivileged communities.

The container that these bikes were packed in has become a storage facility for the BEC in Gobabis. This is one of the first BECs to benefit from receiving a second container – using one as the shop and the other for storage/workshop.

Second container in place at Gobabis BEC

CONTAINER # 3 – partly packed

Meanwhile the hard working volunteer team led by Jamie Brindle now has around 1000 bikes in store. Last Sunday (Aug 3) about a dozen volunteers prepared bikes and packed the first 120 into container #3, which is scheduled for shipping in late September.

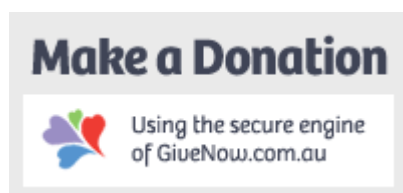

There will be several more volunteer working bees at the High Wycombe yard over the next month to prepare bikes and to fill the container:

**Yard entry opposite cnr Adelaide St and Foxtton B'vde, High Wycombe
on August 26th and September 9th 08:30 – 12:30 + sausage sizzle!**

All volunteers welcome – contact Jamie at perth@bicyclesforhumanity.com or 0402 132 523 for details.

AND we need cash to pay for the shipping, so we can continue to change lives in Africa:

PLEASE
